Claims Rejections – 35 USC 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 5, 6-8, 11-13, 15 and 17-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Vlach (4,128,245). Regarding claims 1, 2, 5 and 12, Vlach discloses a golf tool that is inherently capable of being used as a golf ball marker, the tool comprising a generally round marker portion (20), a shank portion (29) extending from the marker portion that is capable of anchoring the tool to the ground and a pair of arrows (50) extending in opposite directions on the marker portion.

Regarding claims 6 and 13, attention is directed to Figure 8 of Vlach showing a generally round marker portion (20') with directional arrows (320) extending beyond the perimeter of the marker portion.

Regarding claims 7 and 18, note Figures 2 and 2A showing a generally coplanar upper surface.

Regarding claims 8, 15 and 17, note Figures 1 and 4 showing the arrows extending up to the perimeter of the disc.

Regarding claims 11, 19 and 20, note column 4, lines 38 and 39 stating that the disc is made from plastic.

Claims Rejections – 35 USC 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 3, 4, 9, 10, 14 and 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Vlach (4,128,245). It would have been obvious to one of ordinary skill in the art to either inlay or emboss the arrows on the marker portion of Vlach in order to permanently provide the arrows on the marker portion.

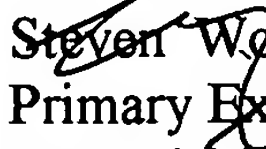

Conclusion

1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
